

# Hispanic Concentrations Within the Transportation Management Area

## Legend

- |   |                       |                                     |
|---|-----------------------|-------------------------------------|
|   | TMA Boundary          | <b># Hispanics in block groups*</b> |
|   | Tulsa County Boundary | <b>Total Number</b>                 |
| <b>TMA Hispanic Population Standard Deviation</b> |                       | • 10                                |
|   | Less than 1.00        | • 100                               |
|   | From 1.00 to 1.99     | • 1,000                             |
|   | Greater than 2.00     | — Highways                          |
|   |                       |                                     |
|   |                       |                                     |

Total TMA Population = 701,545  
 TMA Hispanic Population = 36,955  
 Percent Hispanic within TMA = 5.3%

\*Block groups of 50 or more Hispanic are represented on the map

Standard Deviation is a comparison of the percent of Hispanic population for that block group to the same percentage for the entire TMA. The higher the number the greater the concentration of the Hispanic population.

Map prepared by INCOG, 8/30/05, source - 2000 Census Data SF-1 by block group
