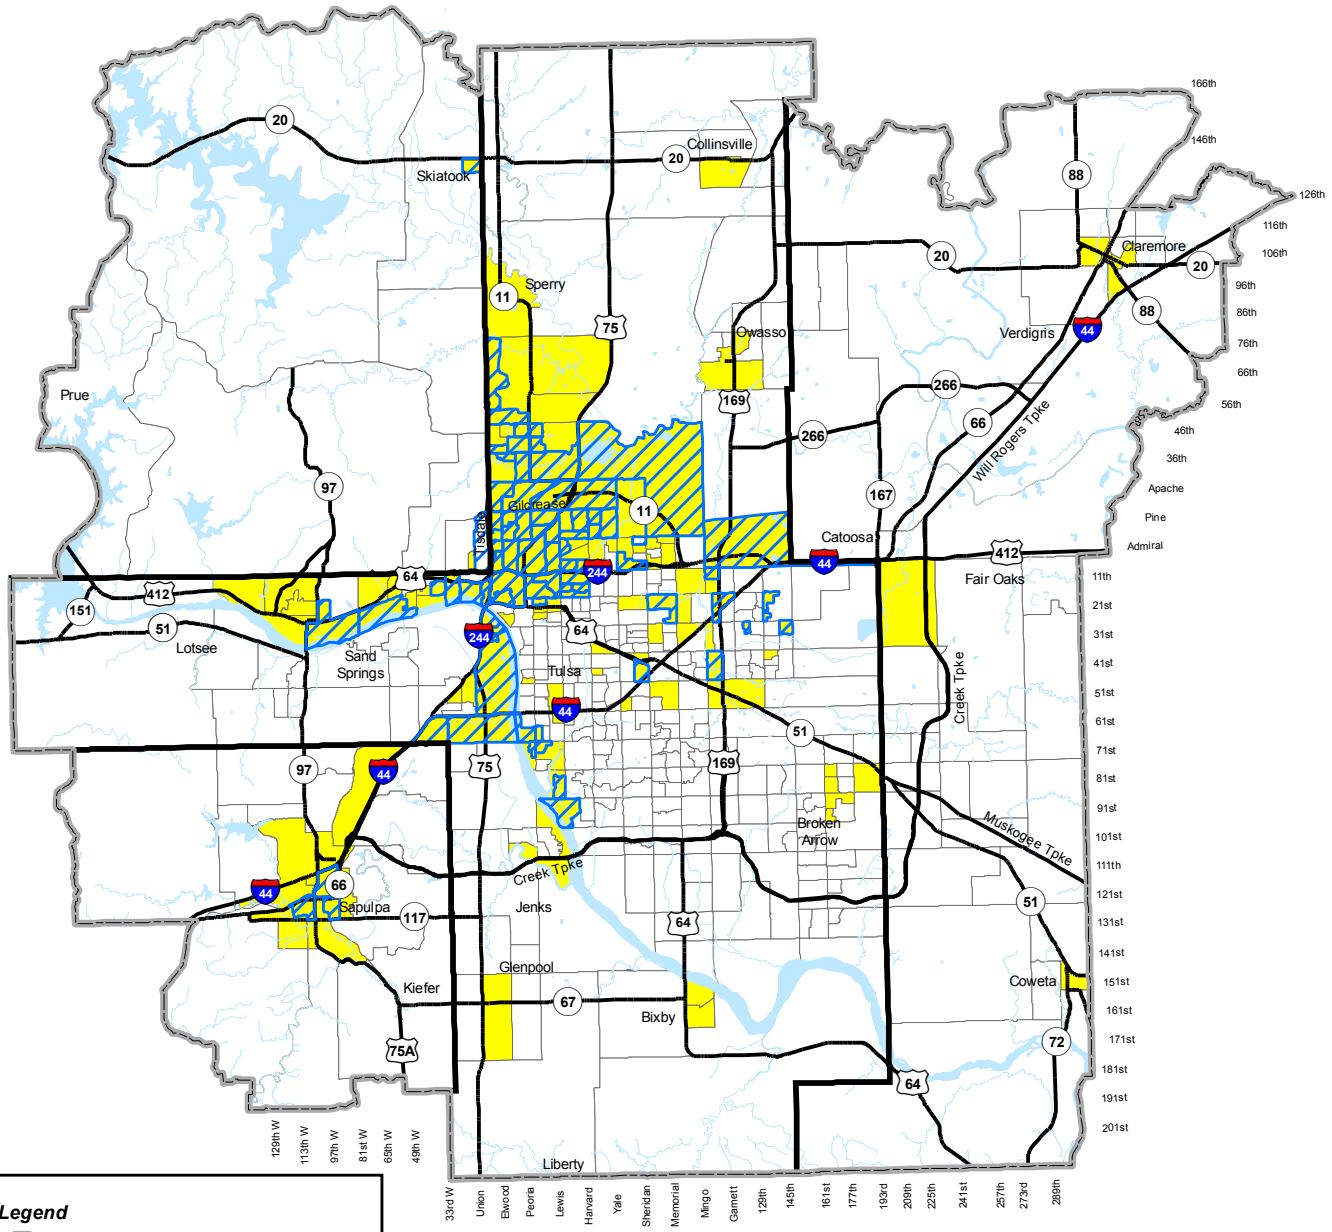
Concentraciones de Personas en Familias de Ingresos Bajos a Moderados dentro del Área de Administración de Transportes



Legend

- TMA Boundary
- Tulsa County Boundary
- Concentrations of Persons Living Below Poverty*

Low-Mod Block Groups

Percent Low-Mod**

- Less than 51.00% Low-Mod
- 51.00% or Greater Low-Mod
- Highways
- Water Bodies
- Streams

*Concentrations are a Standard Deviation greater than 2.00. Standard deviation is a comparison of the percent of persons living below poverty for that block group to the percent of persons living below poverty for the entire TMA. The higher the number, the greater the concentration of households below poverty. (Poverty is defined by the U.S. Bureau of the Census)

**Low-Mod refers to 51% or greater of households that are below 80% of the TMA median household income.

Map prepared by INCOG, 8/30/05, source - 2000 Census Data SF-3 by block group and www.hud.gov

TMA Population for which poverty is determined = 688,187

TMA Population below poverty = 76,345

Percent living below poverty within the TMA = 11.1%
