AGENDA ADDENDUM

6. Transportation Program

B. Approval of Congestion Mitigation and Air Quality (CMAQ) Projects

INCOG recently solicited applications for projects for Congestion Mitigation and Air Quality funding available through INCOG. Funding was made available for three types of projects: purchase of alternative fueled vehicles for public fleets, alternative fueled vehicle charging infrastructure, and specialized electric transportation vehicles (street sweepers or airport handling equipment). Six applications were received from three jurisdictions including the City of Broken Arrow, City of Tulsa, and Rogers County requesting \$1,795,753 in federal funds. Sufficient funding is available to fund all of the projects submitted. A summary of the projects is included in the agenda packet. The Board is asked to approve the recommended projects.
